

**SCIENTIFIC PROGRAM - Day 1 / 10th April 2026 / Hall C**

<b>Session</b>	<b>Topic</b>
	<b>REGISTRATIONS COMMENCE</b>
Papers	
	<b>Blocktails of The Rendezvous of the Needle and Nerves</b>
Lecture	The Same Old Anatomy Revisited from a Different Perspective - Newer Insight into Regional Anesthesia
Lecture	From Eyes to Algorithms: AI Assistance in Ultrasound-Guided Regional Anaesthesia
Lecture	Pitfalls of Regional Anesthesia- How to Avoid Block Failure?
Lecture	Best Additive for My Blocks
Debate	Ultrasound Refines Blocks, It Doesn't Define Them
Debate	Should Regional Anesthesia be Standardized
Panel Discussion	Is Segmental Neuraxial Blockade a Hype?
	<b>Transplant Odyssey: Anesthesia Leads</b>
Lecture	More than One Battle - Navigating Surgery in Transplant Survivors
Lecture	<b>Anesthetic Challenges and Management of a Lung Transplant</b>
Problem Based Learning Discussion	Anesthetic Management of Patient with Recent Intracranial Hemorrhage for Liver Transplant
Problem Based Learning Discussion	Anesthesia Management for Emergency Laprotomy in a Patient with Abdominal Solid Organ Transplant
Problem Based Learning Discussion	Cardiac Arrest during Liver Transplant
	<b>Synaptic Stillness</b>
Lecture	Advanced Neuro Monitoring in Anesthesia
Problem Based Learning Discussion	Recent Advances Airway Management Strategy in Awake Craniotomy for Brain Tumors
Problem Based Learning Discussion	Management of Suspected Spinal Cord Injury
Problem Based Learning Discussion	The Precision Paradox : Balancing Patient Safety & Surgical Accuracy in DBS.
Lecture	Long Term Impact of Anesthesia on the Human Brain - Terra Cognita of the Molecular Wilderness
Panel Discussion	Anesthetic Dilemmas and Grey Zones in Stroke Management
	<b>Stormy Hormones, Resolute Anaesthesia</b>
Problem Based Learning Discussion	Airway Disasters in Thyroid Surgery
Lecture	Emergencies Related to Pheochromocytoma / Paraganglioma
Lecture	The Facade of Normal Blood Sugar : Lurking Risk Under Anaesthesia
	<b>For the Generations Yet to Breathe</b>
Panel Discussion	Technology to Rescue in Making Anesthesia Sustainable for the Environment
Lecture	Resistance Towards Green Anaesthesia: Fossilized Habits or Deliberate Blind Folds?
	<b>Enhancing Perioperative Outcomes: Medicine Meets Anesthesia</b>
Problem Based Learning Discussion	Starting a Beta-Blocker Pre-operatively

Problem Based Learning Discussion	Unexpected Unresponsiveness during Anesthesia Recovery: A Case Discussion
Symposium	<b>Diagnostic Dilemmas of the Anaesthesiologist: What is Justified in Pre-operative Period</b>
1	Look Before Leaping: Echocardiography in Surgical Patients
2	When to Investigate the Pregnant Heart? EKG and Echo in Obstetrics
3	Liver Function Tests in Practice: How Much Liver Workup Is Enough?
4	Renal Function Tests - is Serum Creatinine Enough in all Surgical Patients?
5	Beyond D-Dimer: A Broader Approach to Thrombotic Risk
	<b>Regulatory Glitches in the OR</b>
Panel Discussion	The PCPNDT Act Silences Ultrasound, Suffocates Care
Panel Discussion	Healthcare Run by People Who NEVER Studied Medicine - Impact on OT Management
	<b>Free Papers</b>
